session one

***Fighting the cuts:  
Communists in the  
student movement***

session two

***The communist vision of education***

12 - 5pm @ the College Arms  
18 Store St, London, WC1E 7DH

**All welcome. Time for discussion and debate.**

Communist Students is here to promote Marxism, campaign for democracy, and fight to replace capitalism with communism. To overcome the striking theoretical and organisational failings of today's left we fight for a culture of democracy and openness, encouraging our members to argue their differences out openly. Instead of ignoring other left groups we disagree with we engage with them, arguing for the unity of Marxist students in a single organisation.
