- **No to imperialist war!**
- **No to the theocratic regime!**

The US imperialists and their British allies are still threatening to attack Iran. We must oppose their attempts to extend the bloodshed they have imposed on the Iraqi people onto the peoples of Iran. But we also consider the defense of the anti-capitalist struggles of Iranian workers, women and students as an integral and vital part of the fight against imperialism and its wars. That is why we call on all progressive forces and anti-war activists to oppose the US-UK war plans, but also call on them to support the just struggles of the Iranian people against poverty and repression.

Hopi supporters include Diane Abbott and John McDonnell MPs, Ken Loach, Tommy Sheridan, John Pilger, Naomi Klein, Workers Left Unity Iran, Communist Party of Great Britain, Green Party and hundreds more.
